

Dr. Kenneth Podell, PhD
Neuropsychologist – Concussion Care Program

Through DCDS' relationship through Henry Ford Hospital, Dr. Ken Podell is instrumental in providing concussion care to our student-athletes. Dr. Podell serves as Director of the Division of Neuropsychology, as well as the Sports Concussion Safety Programs for Henry Ford Health System. Dr. Podell interprets our ImPACT Concussion Testing program and advises our athletic trainers regarding safe return-to-play following sports concussions. For more information about Dr. Podell's educational background and practice, please see:
